Dear Parents, Teachers, and Students,

The State of New Jersey has ended its membership with the interstate consortium that produced the Partnership for Assessment of Readiness for College and Careers (PARCC) assessments. While the online platform will remain the same, the state’s Mathematics and English Language Arts (ELA) assessments will no longer be called PARCC. The statewide assessments for ELA and mathematics will be called:

- New Jersey Student Learning Assessments-ELA (NJSLA-ELA)
- New Jersey Student Learning Assessment-Mathematics (NJSLA-M)

The New Jersey Student Learning Assessment-Math & ELA will be administered to students in grades 3-11 and the New Jersey Student Learning Assessment-Science will be administered to students in grades 5, 8 & 11. The specific grade level testing dates are printed below.

The New Jersey Department of Education has randomly selected the Fort Lee School District to participate in a mandatory ELA Field Test for Spring 2019 administration. The primary purpose of ELA field testing is to evaluate test questions and tasks among different sample groups of students. All students in ELA tested grades will participate in the field test. Although the State has changed the number of ELA units from three to two, this year all tested students must sit for three ELA units due to the field testing. Any of the three units may qualify for field testing data.
