## Earth Month Theme 2023: Invest In Our Planet

EARTHDAY.ORG (EDO), the global organizer of Earth Day and the largest recruiter of environmental movements worldwide, announced the theme for Earth Day 2023 will be - "Invest in Our Planet." Acting as a continuation of this year's well-received campaign, the theme is focused on engaging governments, institutions, businesses, and the more than 1 billion citizens who participate annually in Earth Day to do their part – everyone accounted for, everyone accountable.

Unlike previous economic revolutions, this time there are two additional imperatives: saving humanity from the climate crisis and building green economies in every country so that everyone benefits from this green revolution. This can only be done if we invest in our planet's future together.
